

Awaken[®] ST Nutrition that Grows Results

Awaken ST puts nutrients where a germinating crop needs them ... on the seed. It's a new nutrition loaded, growth-enhancing seed treatment for progressive cereal growers in pursuit of maximum yield and return on investment.

What is Awaken ST?

- It is a patented zinc ammonium acetate complex with a balanced micronutrient package containing 5% zinc plus boron, copper, iron, manganese and molybdenum.
- It is CFIA registered specifically as a growth-enhancing liquid nutrient seed treatment for use on a wide range of crops.

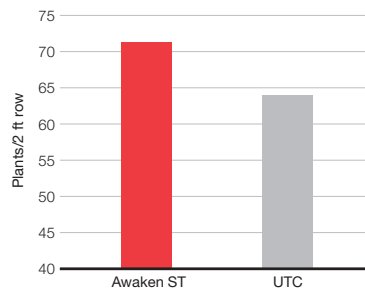

Features

- An easy flowing and convenient to use clear liquid
- May be applied on its own, blended or applied sequentially with traditional fungicide and/or insecticide seed treatments
- Easily applied with traditional seed treating equipment
- Extremely seed safe and non-dusty formulation

The Benefits¹ of Awaken ST

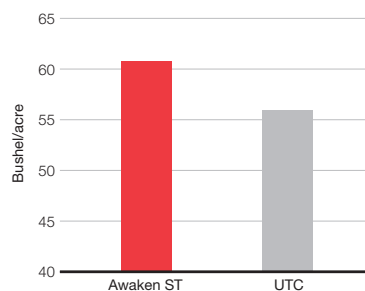

- A larger, more extensive root system
- Quicker seedling emergence
- Better overall plant health and vigour
- Higher yields

Application Information:

- Use Rate* (see label for full details):
 - Wheat, barley, oats, and corn

* When blending or simultaneously applying with other seed treatments it is recommended to allow adequate time for seed drying and not treat seed going directly into the seeding implement/air drill tank.
