

BISON

MANA GRASSY WEED CONTROL

HERBICIDE

BISON[®]

Tralkoxydim

**Bison provides Earth shaking strength
in weed control at a fair price.**

Bison 400 L takes weed control in cereal crops to another level.

Competitively priced grassy weed control: Get the same control as Liquid Achieve[®], but at a fair price.

Eliminate the "Harvest Surprise": Persian darnel can completely smother patches of wheat or barley and will often go unnoticed until harvest due to its short height. Bison eliminates this nasty harvest surprise that can hit a producer in the wallet.

Group 1 mode of action: Bison is a Group 1 herbicide.

Wide window of application:

Wild oats can be controlled in the 1 to 6 leaf stage. However, for best performance apply to grassy weeds at the 1 to 4 leaf stage. Optimum weed control and crop yield will occur when grassy weeds are removed before they begin to tiller.

Tank-mixable for one-shot weed control: Bison is tank-mixable with more than 20 different broadleaf herbicides and insecticides to provide one-pass weed control.

Easy to use: Bison is conveniently packaged in a 40-acre case that contains 8 litres of Bison and 8 litres of Addit[™] adjuvant.

Crops:

- Wheat (spring, winter and durum)
- Barley
- Rye

Key weeds:

- Persian darnel
- Wild oats
- Green and yellow foxtail
- Barnyard grass

**Fair Price.
Brand Results.**

Application and Use Guidelines:

Crop staging: Generally there are no restrictions. Always read the label for tank-mixing instructions.

One easy rate to remember: For Persian darnel, wild oats, and green and yellow foxtail, apply 200 mL/acre. One case treats 40 acres.

Cover ground fast: Apply 20 to 40 L/acre of water for ground application. Apply a minimum of 12 to 18 L/acre of water by air.

Crop safe: For optimum crop safety, spray in warm weather with moist soil. Avoid stressful growing conditions, and avoid applying within 2 to 3 days of temperatures at 4 degrees Celsius or lower.

Mixing instructions: Do not mix with amine formulations of 2,4-D or MCPA.

Beat the weather: Bison is rainfast within one hour.

Bison Tank-mixes

Approve [®]	Dichlorprop	Pardner [®]
Attain [®]	Koril [®]	Prestige [®]
Badge [®]	Leader [®]	Thrasher [®]
