FIRST AID

If in Eyes: Flush with clean running water for at least 15 minutes. If irritation persists, get medical attention.

If on Skin: Remove contaminated clothing. Wash thoroughly with soap and water. If irritation persists, or if rash develops, get medical attention.

If Swallowed: If conscious, drink 1 or 2 glasses of water. Get medical attention. Never induce vomiting or give anything by mouth to an unconscious person.

If Inhaled: Remove to fresh air. If irritation persists, get medical attention.

GENERAL INFORMATION

BLACK LABEL™ Cereal contains nitrogen, available phosphate, potassium, copper and zinc. **BLACK LABEL™ Cereal** is an effective foliar nutrient when early or mid season phosphate levels fall below optimum values. Multiple applications may be beneficial. Applications should be made at night or early in the morning.

APPLICATION PRECAUTIONS

Always check compatibility with other products prior to use. Do not mix with conventional calcium based fertilizers. Black Label™ Cereal is not compatible with conventional products containing the salts of heavy metals.

The prevention of nutrient deficiencies in crop is preferable to correcting them after symptoms appear, although this can often be done by prompt soil and/or foliar application. Foliar applications are recommended when fast correction is necessary or soil application is expensive and impractical.

It is recommended that soil and/or plant tissue samples be analyzed to determine nutrient levels prior to using this product. This product is to be used where deficiencies, based on soil/tissue analysis, have been identified.

FOLIAR APPLICATION RATES

ALL CEREAL CROPS: Use 4-8 litres per hectare. Under deficient conditions a second application with 4-8 litres per hectare may be required two weeks later. Apply with 100 to 200 litres of water per hectare.

NOTE: For all crops, the rate of water should be sufficient for thorough coverage. Coverage is dependent on proper droplet size, which is a function of nozzle size and pressure.

MIXING INSTRUCTIONS

NORTRACE® BLACK LABEL™ Cereal mixes easily with water, as follows:

1. Partially fill tank with water and start agitation.
2. Add pesticides or other nutrients.
3. Add **BLACK LABEL™ Cereal** to circulating tank mix.
4. Fill tank and agitate thoroughly.

STORAGE and DISPOSAL

STORAGE: Store in original containers only. Keep containers tightly closed when not in use. Store in a cool, dry well-ventilated area, preferably in a locked storage area away from children, feed and food products, and seed. Store at ambient temperatures. Do not contaminate water, food, or feed by storage or disposal.

DISPOSAL: Do not reuse container. Completely empty container into application equipment. Then dispose of empty container in a sanitary landfill or by incineration, or, if allowed by provincial and local authorities, by burning. If burned, stay out of smoke. Do not contaminate water, food, or feed by storage or disposal.

HANDLING: Avoid breathing fertilizer mists. Avoid prolonged or repeated skin contact. Avoid eye contact. Wash hands thoroughly after handling this product.
