

Blazer®

Herbicide

A selective post-emergence herbicide for control of a wide range of broadleaf weeds such as cocklebur, lambsquarters and common ragweed in soybeans.

Blazer® Herbicide

- Controls tough weeds including ragweed, pigweed, cocklebur, wild mustard and Canada thistle.
- Control triazine and ALS-resistant weeds.
- Has a different mode of action to manage development of resistant weeds.
- Can be tankmixed with Basagran® and Basagran Forte®.
