## SPRING OR FALL APPLICATION METHOD

■ = time of application

▨ = period of activity

### FOLLOW THESE SIMPLE GUIDELINES FOR SUCCESS WITH casoron® G - 4

- Ensure that the granules are applied evenly. Follow pattern shown on other side
- Do not apply the granules in very windy conditions or when the foliage is wet.
- Avoid overdosing and overlapping in the vicinity of stems and trunks.
- Always keep the product dry.
- Do not disturb ground surface after applying the granules. (i.e. NO digging)
- Use as a post-planting treatment once shrubs are established.
- Do not apply to frozen, snow-covered or waterlogged soils.
