CHOICE™

Weather Master

compatible with glyphosate K-SALT

Product Overview

Choice® Weather Master is a water conditioning agent for use with agricultural herbicides. Designed for hard water conditions. This liquid formulation locks up hard water cations allowing maximum herbicide performance. Compatible with all formulations of glyphosate, including the newer K-salts.

Features

Water Conditioner

Multiple Sequestering & Chelating agents

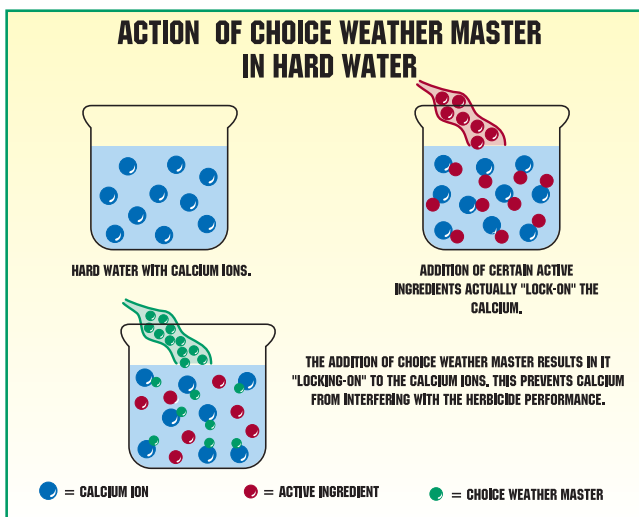

Liquid Formulation

Benefits

Reduces effects of hard water on herbicide performance

Binds multiple hard water such as calcium, in addition to magnesium and iron.

Convenience of treating 1000 L of water with 2.5 to 5 L of liquid instead of using 20 to 30 litres of ammonium sulphate.

*ALWAYS READ AND FOLLOW LABEL DIRECTIONS.

Application Information

- Suggested use rate: 2.5 to 5 L of **Choice Weather Master** per 1000 L of water
- Fill spray tank ½ full of water and begin agitation
- Add desired rate of **Choice Weather Master** to water before adding pesticides
- Higher mineral content in water requires higher rates of **Choice Weather Master**.
