

# XA Oil Concentrate™

## ADJUVANT

XA Oil Concentrate is a blend of light agricultural spray oil and a surfactant that is especially suited for use with Atrazine corn herbicide. When used, XA Oil Concentrate may improve activity on quackgrass, nutgrass and annual grasses such as green and yellow foxtail, and barnyard grass.

**ACTIVE INGREDIENT:** Parafin base mineral oil 83%; surfactant blend 17%.

**CROPS:** For use on silage, field and sweet corn crops registered on the Atrazine label.

**TIMING:** Dependent on Atrazine and tank mix recommendations: broadleaf weeds up to 10 cm, annual grasses 1-2 leaf stage (not over 3 cm). Apply within 21 days of planting or before corn is 15cm high.

**RATE:** Atrazine alone: Use 2.75-5.50 L XA Oil Concentrate /ha (1.25 L XA Oil Concentrate/100 L water) mixed with recommended rate of Atrazine in 200-300 L water/ha (18-27 gal/acre).

When Atrazine mixed with:

Basagran®: For ground application, 1 L XA Oil Concentrate /100 L spray solution to a maximum of 2 L/ha (0.81 L/acre). For aerial application, use 0.125-0.25 L XA Oil Concentrate/ha (50-100 mL/acre).

Assure®: 5-10 L XA Oil Concentrate/1000 L solution.

Laddok®: 10 L XA Oil Concentrate/1000 L solution.

**REGISTERED PESTICIDES:** For use with Atrazine and when tank mixed with Basagran, Assure and Laddok.

**CAUTION:** Do not add 2,4-D, 2,4-DB, cyanazine, MCPA, MCPB, dicamba or any other herbicide to XA Oil Concentrate plus Atrazine. Care should be taken when applying XA Oil Concentrate on new corn varieties.

**RAINFEST:** See individual labels for tank mix partners and follow recommendations.

**PREHARVEST INTERVAL:** See individual labels for tank mix partners and follow recommendations.

**RE-ENTRY TIME:** Once dry on crop.

**PACKAGE SIZE:** 2 x 10 L.

**ADDITIONAL:** Always add XA Oil to spray tank after herbicides are added and spray tank is almost full, use light agitation when filling and spraying; agitation should not be too high as sludging and buttering out may occur.

**STORAGE:** Keep container tightly closed and do not allow water to be added to the contents of this container during storage.
