Nutriscription is a complete prescription service that allows you to be pro-active in obtaining a snapshot of what the crop is using and potential needs. It removes the guesswork and enables accurate and cost-effective treatments for you to gain the best crop. This customized system takes certified lab results and delivers an easy to read agronomic recommendation for your crop. Nutriscription helps your crops reach their full potential. Visit [www.uap.ca](http://www.uap.ca) for our full nutrient lineup.

Western Canada: 1-800-561-5444
